

## SpaceAge Synthetics, Inc. Composite Engineer

### JOB INFORMATION:

Location: Fargo, ND  
Job Type: Fulltime  
Start Date: Immediate

### DESCRIPTION:

#### SUMMARY

SpaceAge Synthetics seeks a highly motivated, experienced and versatile **Composite Engineer** to join our Engineering Department in further developing our technology, products and processes.

#### COMPANY HISTORY

SpaceAge Synthetics, Inc. is a growing manufacturer of quality composite materials. We have products that are utilized in the Construction, Marine, RV, Mass Transportation, Rail, Sporting and Military Industries.

SpaceAge is working on several federally funded research projects to develop our technology for use in a variety military and commercial applications.

#### KNOWLEDGE AND SKILL REQUIREMENTS

Experienced and innovative **Composite Engineer**, to handle hands on design and development of new products and processing techniques.

Must have a BS in Mechanical, Chemical, or Composite Engineering with 5+ years of hands on composite product design and process development.

Must be able to work independently with standard composite equipment, CNC machines, hydraulics, pneumatics, and physical testing equipment.

A working knowledge of Pro-E and ANSYS are strongly desired for this position.

Experience with Resin Transfer Molding (RTM), Vacuum infusion, polyurethane foam, and sandwich structures is desirable.
